

Hi all 2017 Mud Rats

At the time I guess one could have said that our 13th year was unlucky. Looking back at it now, it was a great year. It will be noted as one of those really memorable years, one of those challenging years, a real tester for all.

I was chatting to some farmers a few days ago and they are begging me to arrange a mid-year sani. They need the rain and mentioned that the last drop of rain was recorded on the beach at Scottburgh as we finished packing up.

Thank you so much to you all for making 2017 and our 13th year **"ICONIC"**.

The icing on the cake for us was the great news that KAP has extended their title sponsorship until 2020! What great sponsors to have in our sport.

Entries

Things roll around quicker and quicker as each year passes. 2018 entries will open on Monday, 3rd July!

The Black Mambas amongst you may note that we have changed our entry system service provider. Hopefully the first change for the 2018 year will be seamless and all Tamika's hard work on this will run without any hitches.

Entry Steps

We have changed our entry provider to Entry Ninja this year. The following steps will help to make your entry process as smooth as possible.

- Go to <https://entries.sani2c.co.za>
- Register an account, preferably using your email address from last year. Alternatively, if you already have an Entry Ninja account, just log in.
- Make sure all your details are up to date in your [profile](#).
- Encourage your teammate to do the same! An updated profile will ensure a swift entry, so be **sure to complete the above steps before entries open**.
- If you don't see any [pre-entry information](#) on your [dashboard](#), please contact Entry Ninja support.
- Keep an eye on the [entry site](#) on Monday 3rd of July, 10:00 AM, when entries will open for last year's riders.

Thanks

The many letters of thanks that we receive are really appreciated and surprisingly it has been our most appreciated year ever. Thanks again for a very special year.

Till the next newsletter, I am off to ride some far away trails, and will leave Tamika to sort any Entry Gremlins

Kind regards,

Farmer Glen, Tamika (the Farmer's Daughter) & the KAP sani2c team

KAP SUPPORTING THE SANI2C COMMUNITY

KAP Industrial provides contractual logistics services for products like fuel, cement, agriculture and food. The group's passenger division offers commuter, tourist and intercity passengers safe and reliable transport. Our chemical division is the largest manufacturer of the raw material mainly used in the production of a wide range of plastic products. The integrated timber business manufactures timber and decorative panels for the kitchen, furniture and construction industry using timber from our own forests. The group's automotive components division manufactures components and accessories that are used by all the major motor manufacturers, whilst the integrated bedding division manufactures foam; mattress ticking and mattresses.
